CAMPUS SAFETY

Muskegon Community College is committed to offering programs that develop intellectual curiosity, encourage aesthetic sensitivity, and promote the value of work and humanitarian values.

Within this commitment also exists the responsibility to provide a safe and healthy learning environment. At Muskegon Community College the safety and well-being of the students, staff, and the general community are always at the top of our agenda. With the support of all departments, we are involved in keeping this campus safe and secure. A truly safe campus can be achieved through the cooperation of all students, staff, and guests. Please read this Guide carefully and use the information to foster a safe environment for yourself and others on campus.

In compliance with the “Jeanne Cleary Disclosure of Campus Security Policy and Campus Crime Statistics Act” formerly known as the Crime Awareness and Campus Security Act of 1990, this guide will provide information annually regarding safety and security procedures and crime statistics.

The Physical Plant Department of the College maintains the College’s buildings and grounds with a concern for safety and security. The department inspects campus facilities routinely, promptly making repairs affecting safety and security, and responds to reports of potential safety hazards. Security personnel assist the Physical Plant Department by reporting potential safety and security hazards. Students and staff should contact the Physical Plant Department at 777-0318 to report any problems regarding safety or security.

Most college facilities are open to the public during the day and evening hours when classes are in session. During the times that the College is officially closed, buildings are locked and only authorized staff have access.

The Administrative Services Department is responsible for security and emergency responses at Muskegon Community College. The department is also responsible for providing support services designed to meet the needs of the college community. Some of these services are as follows:

- Register and provide parking for students
- Test and maintain all fire prevention equipment and alarms
- Provide crime prevention and safety lectures and seminars
- Inspect buildings for safety compliance
- Issue all College door keys and open doors in emergency situations
- Make emergency notifications
- Provide an escort to your car when requested

TO REPORT A CRIME OR EMERGENCY

Call Security at 777-0545/557-5648. If you do not get an answer and the situation warrants, call the local law enforcement at 911. If using a pay phone to dial the local law enforcement, dial 911; no coin is needed.

EMERGENCY USE ONLY PHONES

There are “emergency use only” phones located on the third floor of the campus. To contact the Physical Plant Department dial 318; for security dial “0”; and for local law enforcement, dial 9-911.

EMERGENCY CONTACTS

REMAIN CALM! No set of guidelines can address every situation. Use your own best judgment. In cases involving injury to persons, give priority to concern for the well being of the injured person rather than property damage.

CRIME PREVENTION

We believe that almost every crime committed on campus is preventable. The cooperation and involvement of students and employees is absolutely necessary in providing a safe learning environment. Individuals must assume responsibility for their own personal safety and the security of their personal belongings by taking simple, practical precautions. The following are suggestions in which members of the campus community can reduce their chances of suffering from a violation of their property or themselves.

- Report all crimes and suspicious activities to the Physical Plant Department.
- Mark your property such as laptop computers, tape recorders, calculators, radios, etc.
- Keep valuables with you.
- Do not leave books, jewelry, purses, wallets, backpacks or other valuables unattended.
- Do not leave purses in desks or file cabinets unattended unless the cabinet or desk is locked.
- Do not leave valuables on a chair behind you while at a study carrel.

The Physical Plant Department is located in Room 1107 of the Stevenson Center, 777-0318. The Department maintains a close working relationship with the City of Muskegon Police who have complete jurisdiction on the campus, and other appropriate law enforcement agencies.
